

# Beeman's Pharmacy saves money every month with SP 200

Bob Beeman, R.Ph., Owner

Thousands of pharmacies rely on the SP 200 Robotic Prescription Dispensing System to improve patient safety.

“Reimbursement rates had been cut and I got to a point where I couldn’t maintain all of our pharmacists’ salaries anymore. I knew something had to change.

“The economics of adding the SP 200 made the most sense. The lease rate was about \$7,000 less per month than a pharmacist’s salary with benefits, so I was able to reduce the staff by one pharmacist and half of a pharmacy technician’s time.

“Beeman’s Pharmacy has been family-operated since 1962. We are a self-described ‘pharmacy of last resort’ because we take chances on dispensing expensive drugs and will do extra paperwork that other pharmacies won’t do. In fact, we specialize in difficult cases as far as clientele and certain drug types are concerned. Even other pharmacies send challenging cases to us.

“Had I known earlier about the advantages of the SP 200, I would have done it a lot sooner. The robot gives us a high rate of confidence in what we dispense. Even when I dispense 500 prescriptions in a day by myself, I am confident the SP 200 dispensed correctly.

“I was skeptical before I committed to the robot because all companies say their product is good, but I have been pleasantly surprised with the SP 200. Yes, the robot does

what ScriptPro says it will do. It keeps you more organized all the way around, optimizing your time and managing your workflow more efficiently.

“I’m thrilled with the product and the people. Getting the SP 200 has been an outstanding experience and exceeded my expectations, as well as saving me money every month.”
