

The Eckerd Pharmacy Reengineering Project

January 7, 2000

A Collaborative Study by the School of Pharmacy, Auburn University,
and Eckerd Drug Stores

By:

Kenneth M. Barker, PhD, Heidi M. Anderson-Harper, PhD, et al.

Results of this study included testing of the dispensing accuracy of the **ScriptPro** SP 200 Robotic Prescription Dispensing system. According to the study, with a sample of 500 prescriptions filled on the SP 200, there were zero errors involving the wrong drug/wrong strength.

11/24/2002

**SCRIPTPRO ACCURACY
DURING ECKERD STUDY**

<u>Error Types</u>	<u>Error Rate*</u>
Wrong drug	0
Wrong strength	0

***Sample: 500 prescriptions**
