

Rx Paperwork Printer

The SP Central Rx Paperwork Printer is a high-speed laser printer that supports prescription paperwork printing for pharmacies. It prints up to 45 pages per minute to keep up with the workload of a busy pharmacy. The dual drawer printer capacity supports monograph labels for prescription paperwork printing as well as plain paper stock for report printing.

ScriptPro's SP Central Pharmacy Management System provides a fully integrated solution for managing your pharmacy. One platform supports robotic dispensing, full workflow processing features, third party prescription processing, Drug Utilization Review, IVR, and Point of Sale.
