

M

“The SP 200 has made life easier ...”

*Dan Brown, R.Ph., Director of Pharmacy
San Joaquin General Hospital, French Camp, CA*

Meet Your New Pharmacy Partner

“If the pharmacy turned off the SP 200, we would walk out! With ScriptPro, we get the prescriptions out faster and we stay caught up even when we are short-handed. We don't have to hold a vial and watch the pills come out, the SP 200 does it all for us. It has taken a lot of the stress out of the day.”

*Cynthia Rodgers, Pharmacy Tech
Brewton Medical Center Pharmacy
Brewton, AL*

“I tell other pharmacists, ‘You won't believe how having ScriptPro will change your life.’ I'm more relaxed; I don't have so many things hanging at the end of the day. Before ScriptPro, I was ready to retire, now I'm not so ready.”

*John Williams, R.Ph. & Owner
Milburn Pharmacy
Sullivan, IN*

“These systems are designed to work with pharmacists, complementing our services and giving us more time to interact with patients, physicians and other staff.”

*Thomas E. O'Brien, Pharm.D.
Director of Pharmacy for Strong Health
University of Rochester, Rochester, NY*

ScriptPro's mission is to develop and provide state-of-the-art technology that reduces manual dispensing tasks and allows the pharmacy staff to assume more active roles in health care management. ScriptPro enhances the practice of pharmacy by streamlining workflow, reducing dispensing errors and lowering operating costs. You can devote your free time to customer interaction, and at the same time, reduce your stress level.

ScriptPro's automation products and employees are your partners in the pharmacy. A ScriptPro trainer will be in your pharmacy the day after installation of your robotic system. The trainer works with each staff member in small groups to ensure a comfortable and smooth transition. You will gain insight into how ScriptPro products will become powerful tools for you.

But ScriptPro doesn't leave when the trainer leaves. Our acclaimed Customer Service department is available 24 hours a day, 7 days a week.
