

SP 200[®]/SP 100[™]/SP 50[™] Operator Training System

The SP 200/SP 100/SP 50 Operator Training System (SPOT) is an interactive computer-based training tool for pharmacy staff to achieve and maintain operator proficiency with the ScriptPro Robotic Prescription Dispensing System.

SPOT guides the user through a series of lessons and tests. Upon completion, the operator may print a certificate of achievement.

For added convenience, SPOT can be in use while the robotic system is processing prescriptions.

SP 200[®]/SP 100[™]/SP 50[™] Operator Training System

Training Topics

- Lesson 1: Software Tour
- Lesson 2: Script Processing
- Lesson 3: Working with Cells
- Lesson 4: System Maintenance
- Lesson 5: Vial Dispensers
- Lesson 6: Additional Training

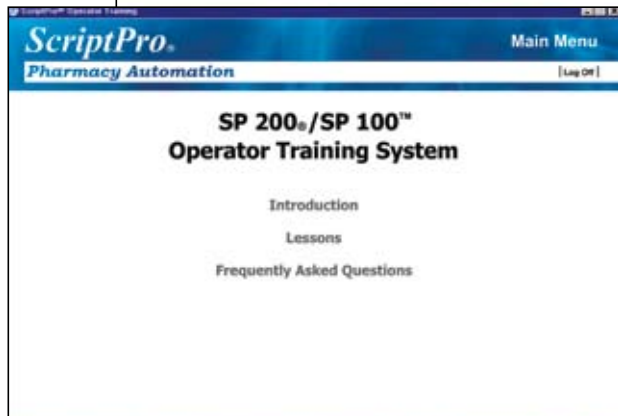

Note: Lessons may be completed in any order. All questions must be answered correctly on a proficiency test for successful completion.

Getting Started

1. Select *Launch* in the main menu.
2. Select *Operator Training*.
3. Enter *PIN* or scan Operator ID badge.
4. Select *Log On* button.

Note: Operators must be added to the Operator List on the SP 200/SP 100/SP 50 prior to accessing the training program.

Main Menu

The Main Menu appears immediately after logging on. It provides access to the three main sections of the system:

Introduction: Brief overview of the SPOT system.

Lessons: Access to lessons, tests, and the Operator Home Page.

Frequently Asked Questions: List of frequently asked questions with answers provided. FAQ topics are printable.

Operator Home Page

When logged on to the system, the operator may view a screen that shows his or her status for each lesson and test. This is called the Operator Home Page. Once all lessons and tests are completed, the operator may print a certificate of achievement.

Spanish version available.

Customer installation may be necessary.
