About ScriptPro

We create innovative, seamlessly-integrated robotics and workflow systems that optimize pharmacy services. As patient care progresses from inpatient to outpatient and long-term care settings, the need for advanced systems to support medication therapy is evolving. Our solutions include strategic planning and financial management services that help health systems succeed in a dynamic and financially challenging environment. ScriptPro is the future of pharmacy. Today.

PharmacyPro Mobile Point of Sale Module (App)

Specifications*

PharmacyPro is a mobile application available for free download on the App Store and is hosted on customer provided and supported hardware.

Module licenses sold separately; one license required for each module per device.

Hardware and OS Compatibility: iOS 10.3 or greater; Apple iPhone 5s or greater, Apple iPad (2 or greater), and iPad mini (any model).

Card Processing: Customer must contract with Square for the card processing device.

Connectivity: Requires internet connection via Wi-Fi or data plan.

Data Usage: Mobile Dispense: ~20kb per dispense (~2 MB/100 dispenses).

Supported Platforms: SP Central Pharmacy Management System

Pharmacy Data Security:

PharmacyPro uses FIPS 140-2 encryption ciphers and is configured to align with FIPS 140-2 standards.

PharmacyPro ensures patient data remains secure; no PHI, PII, and/or Card Data is stored in the app or on the device.

Integrated card transactions are processed via Square's payment solution; Square's security posture provides the following benefits**:

- Square's payment solution is PCI compliant.
- Square is the merchant of record for every transaction.
- Square adheres to industry-leading standards to manage its network, secures internal web and client applications, and sets policies across its organization.
- Square encrypts transactions at the point-of-swipe and tokenizes data once it reaches its servers.

**Specifications subject to change without notice.*

***For integrated card processing, customer must contract with Square for the card processing device. Additional information about Square is available at Squareup.com.*
